

The PHA Nursing, Midwifery and Allied Health Professions Directorate is responsible for:

- professional, service and public health issues relating to nursing, midwifery, health visiting and the Allied Health Professions (AHPs);
- the Health and Social Care Safety Forum;
- the Centre for Connected Health and Social Care.

Through the Directorate, the PHA provides:

- regional leadership for Personal and Public Involvement (PPI);
- regional leadership for quality and safety.

Nursing incorporates health visiting, healthcare assistants and other support staff, while Midwifery includes midwives and maternity support workers. AHPs cover dietetics,

occupational therapy, orthoptics, physiotherapy, podiatry, radiography and speech and language therapy.

The aim of the directorate is to promote a service centred on the person, the patient and the community; a service that is high quality and delivered with care, compassion and respect for each individual.

## **Nursing and midwifery**

The nursing and midwifery team is regulated by the Nursing and Midwifery Council (NMC). The nursing team has developed a professional nursing and midwifery forum for all nurses and midwives working in those organisations affected by the second phase of the Review of Public Administration (RPA 2). This group is chaired by the Director of Nursing and Allied Health Professions and works to help nurses and midwives in these organisations:

- keep up to date with regulatory and other professional issues;
- share good practice;
- share learning from incidents and events;
- raise professional concerns.

Professor Tony Hazell, Chair of the NMC, recently attended a meeting to update the team on the latest news from the Nursing and Midwifery Council.

## **Allied health professions**

AHPs are regulated by the Health Professions Council (HPC). The HPC is in place to protect the public by maintaining a register of health professionals who must meet their standards for training, professional skill, behaviour and health.

We have established an AHP forum to provide professional leadership to AHPs working in the PHA, Health and Social Care Board (HSCB) and Business Services Organisation (BSO). This forum will assist AHPs to fulfil their statutory requirements with the HPC.

## **What Really Matters? A New Vision for Nursing in Older People's Services**

This digital resource can be used by all organisations to highlight how we, as a collective group, can make a difference to the lives of older people across communities and care settings in Northern Ireland.

# What Really Matters...?

## A New Vision for Nursing in Older People's Services

Personal and Public  
Involvement (PPI)

Involving you,  
improving care

## Partnership

The team work in partnership with a wide range of organisations. These partners are key to the success of the team and are considered valued colleagues. We are grateful for their support and guidance and hope these partnerships will become even stronger in the future.

### Partners include:

- Strategic Planning and Performance Group (SPPG)
- Local Commissioning Groups (LCGs);
- Patient and Client Council;
- Health and Social Care Trusts (HSCTs);
- Trade union representatives;
- Long Term Conditions Alliance Northern Ireland;
- Community Development Health Network;
- Northern Ireland Housing Executive;
- Business Services Organisation;
- professional organisations;
- Regulation and Quality Improvement Authority (RQIA);
- voluntary and community organisations.

## Key achievements

- appointed nurse consultants to all of the five LCGs;
- agreed commissioning structures with the HSCB. Nine groups have been agreed and nurse leads identified for each;
- identified nurse leads to provide professional advice and support for implementation of specific service frameworks, eg cardiovascular, cancer etc.;
- providing lead nurse input to service reviews, eg urology and renal reviews;
- leading on a number of regional projects for service development and service improvement.
