[Health and Social Wellbeing Improvement](#)

This Infant Mental Health Framework represents a commitment by the Public Health Agency, Health and Social Care Board and Trusts, as well as academic, research, voluntary and community organisations across Northern Ireland, to improve interventions from the ante-natal period through to children aged three years old.

The PHA Infant Mental Health e-bulletin compiled by the National Children's Bureau is now available

[NI infant mental health bulletin](#)

The e-bulletin is a means of sharing progress from stakeholders whose work contributes to the PHA Infant Mental Health Framework

<https://www.publichealth.hscni.net/publications/infant-mental-health-framework-northern-ireland>

The work supports protecting and improving population health through a focus on 0-3's and interventions that supports early childhood development.

Any queries please contact Maurice.Meehan@hscni.net

The e-bulletin includes a snapshot of all the local good practice across Northern Ireland and beyond, as well as emerging research and practice developments that may be of interest. As always, if you have information that you would like to include in future IMH e-Bulletins, or you wish to be added to the mailing list, please contact Paula Carson-Lewis pcarson-lewis@ncb.org.uk
