Inequalities in health: time for action

27 October 2010

Building blocks for a happy healthy life

Give every child & young person
the best start in life

Ensure a decent standard of living for all

Build sustainable communities

Make healthy choices easier

Make healthy choices easier

Give every child & young person the best start in life

Ensure a decent standard of living for all

Advice 4 Health

Since 2006, advice has been provided to over 35,000 people across the Northern area through the Advice 4 Health project – resulting in a minimum of £3.4million income maximisation being recovered for patients and clients

Ensure a decent standard of living for all

Keep Warm Packs

8000 older and vulnerable people across Northern Ireland provided with 'Keep Warm' packs to help them stay warm during the cold weather

Ensure a decent standard of living for all

Fuel Poverty

673 cold weather related deaths in Northern Ireland during 2009- 2010

- Excess Winter Deaths - 532
- Deaths in Spring/ Autumn - 141

For every pound invested in tackling fuel poverty

- 42p is recouped through NHS saving
- 30p is recouped from utility bills savings
- remainder comes back from carbon offset

Build sustainable communities

**best start
in life**

maximise capabilities

fair employment

ill health prevention

healthy standard of living

**sustainable
communities**
