Please note:

2016/17* - covers period from 1st April 2016 to 28th February 2017 only.
January & February 2017 figures are provisional until validation.

Surveillance for CDI inpatients aged 2 years and over commenced 1st April 2008.

All data is validated on a quarterly basis and may be subject to amendment following validation.

There has been a change in the monitoring and reporting arrangement of *C.difficile* from 1st April 2013. All *C.difficile* isolates now reported are both GDH or PCR positive AND toxin positive (previous reporting was based on toxin positivity only).
