

Directory of Drugs & Alcohol Services for the Southern Area

Fourth Edition - Revised
May 2010

Service Provision by Town

INTRODUCTION / WELCOME

This Directory of Substance Misuse Services for the Southern Area has been produced by the Public Health Agency's Southern Drugs & Alcohol Co-Ordination Team (SDACT) as part of their local Action Plan.

It aims to give the reader an easy to use and accessible guide to the range of support, help and advice services that are available in the Southern area dealing specifically with drug and alcohol misuse.

I hope that you find this Directory helpful in identifying what drugs and alcohol services are available in the Southern area. However, if you have any comments or suggestions on how we could improve the Directory or would like more information on SDACT please do not hesitate to contact our Senior Drugs & Alcohol Co-Ordinator (For contact details see back page)

On a final note I would like to thank all those groups and agencies who have contributed to the Directory.

Mr Kieran Devlin
Chair, SDACT

The Service provides support to families and children affected by parental substance misuse. The Service is funded by the Southern Drug & Alcohol Co-ordination Team, with it's purpose being to help families explore the impact of substance misuse on their lives and support them to make positive changes to ensure the safety and well- being of their children.

Barnardo's interventions are underpinned by systemic theoretical perspectives, whereby they consider individuals in the context of their family life, community and broader society. They use a range of techniques including Motivational Interviewing, Solution focused Brief Therapy, Cognitive Behavioural Therapy, Systemic Family Therapy and Groupwork. Their work methods are tailored to suit individual family need and can involve:

1. Specific relationship work (eg couples, parent/child)
2. Therapeutic family work – including extended family
3. Individual work with both using and non using parents
4. Parenting support – parent/couples/carers
5. Direct work with children (eg therapeutic, safety planning)
6. Group work interventions

Sessions with families and children are usually undertaken on a weekly basis and are approximately 1 – 1.5 hours in duration. An outreach service is provided using a range of statutory and community facilities across the Southern Trust and can also work with families in their own home.
