

Conference - "Stillbirth – causes, prevention and management", Thursday 22 November 2012, Lagan Valley Island, Lisburn

Overview

Local, National and International speakers will come together to present an overview of stillbirth.

Topics will include the epidemiology and classification of stillbirth, aetiology and risk factors, investigation - including post mortem, as well as consideration of the management and prevention of stillbirths.

A programme and details for registration will be forwarded in due course. [There will be no fee for this event.]
