

Delivering Care aims to support the provision of high quality care which is safe and effective in hospital and community settings, through the development of a framework to determine staffing ranges for the nursing and midwifery workforce in a range of major specialities.

The attachments below detail the policy framework for different care settings, as well as strategic direction and rationale for general and specialist medical and surgical adult in-hospital care settings, and using the Framework for general and specialist medical and surgical adult in-hospital care settings.
