## [Health and Social Wellbeing Improvement](#)

Over the last decade Belfast has experienced significant political, economic and social change. As a consequence, the population of greater Belfast has increased substantially over the past decade. This has been as a result of both natural change and net migration gain.

This report covers the following issues

- legislation on immigration, work, health & social services and social security entitlements;
- health issues;
- migrant health priorities identified at the Stakeholder Workshop held in April 2010.

## Details

Format

A4, Report, 52 pages.

Target group

Health professionals and those interested in population changes.
