Thursday, 01 July 2010

This first annual report of the Director of Public Health highlights the many public health challenges that affect people in Northern Ireland and how the public health team tackles this complex agenda by working with many statutory, community and voluntary partner organisations across health, local government, education, housing and other sectors.

The report refers to core tables throughout, these tables provide key statistical data on population, birth and death rates, mortality by cause, life expectancy, immunisation and screening. The report and the core tables are available below.
