

Quality standards for the delivery of specialist stop smoking services in Northern Ireland

The PHA commissions specialist stop smoking services across Northern Ireland. It has enabled the establishment of specialist stop smoking services in a range of settings including GP practices, pharmacies, hospitals and community settings. Tobacco control activities are overseen locally by the PHA's Tobacco Control Groups. The multi-agency groups oversee and advise on tobacco control initiatives.

All stop smoking services are required to comply with the requirements of 18 standards. This document highlights the standards.

Also available as a PDF is the [Training framework for specialist stop smoking services in Northern Ireland, 2015](#).
