

Hepatitis B: what your positive screening result means (English and translations)

This leaflet is for pregnant women who have been diagnosed with hepatitis B. It provides information on the care pathway for these women, including referral to a liver specialist, the vaccination course for the newborn child, and long-term protection from the infection.

This information is effective from 1 July 2025 and is for babies born on or after 1 July 2024.

PDFs of a previous version of this leaflet (2017) are also available in 15 languages.

These are currently being updated and will be published soon.
