Allied Health Professions

This resource has been developed to help raise awareness and provide an overview of some of the challenges involved in living with such a neurological condition. The Resource pack includes a CD Rom containing the neurological conditions awareness programme PowerPoint presentation, facilitator and participant notes and supporting documentation. The DVD is divided into short sections which can be used to illustrate particular elements during the training programme or as a standalone resource.

To access the resource, please request a training pack by emailing your details to ppi.secretary@hscni.net.
