

Phase 2 Parent/Carer Questionnaire: Review of Allied Health Professions' (AHP) support for children/young people with a statement of special educational needs

We want to know what you think about the AHP services for your child.

We will also seek views of AHPs and teachers who work with your children and we will use them all to inform our decisions.

This phase of the review is focusing on current AHP services for children/young people with a statement of special educational needs enrolled in mainstream schools and learning support centres/units attached to a mainstream school.

If you would like to complete the survey online please use the following link:
