[Population Health and Wellbeing](#)

We are pleased to present the regional report on the findings in relation to Hospital Eye Care Services, which is one of a number of work streams on the current 10,000 MORE Voices work plan.

This report presents the analysis of findings from the story collection in Hospital Eyecare Services which has been undertaken as part of the ongoing work in the 10,000 MORE Voices initiative. The period covered in this report is from December 2016 to May 2017, during which time 531 stories were received from people with experience in Hospital Eyecare Services since July 2014, as well as 30 stories from staff.
