

## **Procurement Awareness Sessions**

To help build awareness and capacity in groups and organisations interested in procurement opportunities, the PHA held a number of Procurement Awareness Sessions in autumn 2013 which were open to all prospective providers/tenderers interested in applying for future PHA tender awards.

These sessions:

- provided an overview of relevant legislation and policy under which PHA procurement will be conducted;
- outlined how procurement will operate including how tenders will be advertised and the documentation that will be used;
- set out the nature of information sought from tenderers including that relating to costing and activity;
- provided an outline of timescales for various tender exercises.

A copy of the PowerPoint presentation used at these sessions is available as a PDF file [here](#).

A list of organisations to contact for further advice and guidance is available as a PDF file [here](#).

A list of Frequently Asked Questions from the Procurement Awareness sessions is available as a PDF file [here](#) ; we strongly recommend that you take a look at these
