**Northern Ireland AHP
Research & Innovation Conference**

Embracing A Population Health Approach

*Balmoral Hotel Belfast
11th September 2024*

The conference, developed in collaboration with the Public Health Agency (PHA) Northern Ireland and supported by the Council for Allied Health Professions Research (CAHPR) is aimed at Allied Health Professionals (AHPs) who have started their journey or are preparing to start the journey as a researcher in any capacity. This also includes those who want to develop their research pillar of Advanced Clinical Practice or any AHP who has started to dip their toes in the water and would like a safe place to develop their research skills.

Abstracts are invited from any AHP staff members and may include original research, audit or quality improvement studies. All submitted abstracts and all presentations (poster or oral) will receive feedback delivered in a nurturing format- the key aim is to support and develop new researchers.

Delegate places are limited to 100 places, allocation of places will be in conjunction with HSC Trusts AHP leads, PHA and the conference organising committee.

For information regarding the conference and abstract submission process:

Wednesday 22 June 2016

Date for your diary notification

Involving you, Improving care: our involvement story
A shared event for staff, service users and carers to progress thinking on Personal and Public Involvement (PPI) and showcase good practice

**22 June 2016, Riddel Hall, Queen's University,
Stranmillis, Belfast**

Join us for a one day conference to focus on 'Involving you and Improving care'. This event will explore at depth the impact of involvement and the contribution it makes to Health and Social Care (HSC). It offers a collaborative learning opportunity bringing together an involvement network to share practice and identify future possibilities to further embed Personal and Public Involvement (PPI) into culture. It will be of interest to HSC staff, academics, service users/carers and the community and voluntary sector.

The event will offer you the chance to:

- exchange knowledge and practice in PPI;
- participate in co-produced workshops;
- hear from a range of influential speakers about emerging local and national best practice;
- engage with key note listeners and consider actions for impact;
- network with HSC staff, service users, carers and the voluntary and community sector;
- achieve an award in recognition of PPI work by showcasing your involvement story on a poster board;
- appreciate the outcome, influence and impact of involvement during collaborative learning sessions.

Join us for this exciting event by registering your interest with Holly Pepper at holly.anderson@qub.ac.uk. Follow us on twitter at [#involvementstory](https://twitter.com/involvementstory)

Details of the programme and opportunities to host a Collaborative Learning Session or Involvement Story Board will be circulated shortly.

This is a joint event which has been organised by the PHA, QUB and HSC partners with service users and carers. We would like to acknowledge funding from the Division of Clinical Psychology and the HSC R&D Division, PHA.

Wednesday 2 March 2016

The AHP team in the PHA hosted a follow-up workshop in Knockbracken Hall to review progress and to provide an update on the current recruitment process for the appointment of Band 5 staff on the 2nd of March 2016 for the following professions:

- Dietetics
- Occupational Therapy
- Orthoptics
- Physiotherapy
- Podiatry
- Speech and Language Therapy

This event was attended by a wide range of stakeholders from the DHSSPS, PHA, Trusts, Universities, and representatives from AHP professional bodies. Workshop attendees considered the need for any amendments to the current processes to ensure the availability of band 5 AHP staff to meet the needs and pressures of the current health and social care, in line with themes and actions outlined within the AHP Strategy.

The AHP team in the PHA hosted a regional workshop on Band 5 AHP Recruitment in Knockbracken Hall, Belfast on Friday 1 May 2015.

This workshop included key AHP and HR stakeholders from:

- BSO
- Health and Social Care Trusts
- Ulster University
- DHSSPS
- Professional Bodies

- PHA

The key theme of the workshop was to review the regional recruitment process adopted across the region and to consider amendments to meet the future recruitment needs for band 5 AHP staff.

This is one of the key targets and actions of the 2012-2017 AHP Strategy 'Improving Health and Well-being Through Positive Partnerships'
