This photograph was taken in 1968, when the girl was 10 years old. She was the first child to be born with a cleft lip and palate. The photograph was taken by a friend of the family, and it is a very rare and valuable record of the child's life. The girl was born with a cleft lip and palate, and she was the first child to be born with this condition. The photograph was taken in 1968, and it is a very rare and valuable record of the child's life.

screening has been introduced in North Ireland
