Mental Emotional Wellbeing and Suicide Prevention Training

Monitoring Report for 2017/18

The Public Health Agency (PHA) commissions a range of Mental Emotional Wellbeing and Suicide Prevention training programmes which are delivered across Northern Ireland. Training can range from increasing an individual's awareness of mental health and wellbeing through to skills training in mental health and crisis intervention.

This monitoring report provides and overview of training delivered from April 2017 – March 2018. All information provided has been collated from the submission of training monitoring returns provided by programme facilitators working in the mental emotional wellbeing and suicide prevention area.
