

Diabetic eye screening programme

Consultation in brief

Diabetic eye screening programme: Consultation in brief

This document outlines how the Northern Ireland Diabetic Eye Screening Programme could be delivered in the future. It summarises three options that have been shortlisted from the pre-consultation carried out in 2017 and asks for people to respond to the consultation. More detailed information on the consultation and background information is available at: <https://consultations.nidirect.gov.uk/hsc-public-health-agency/c27ed4a8>

This consultation has now closed. Thank you for your input. We will be assessing the feedback from all questionnaire responses and discussions at our information sessions. All this will be fed into a results summary, which we will upload to this

page.
