[Service Development and Screening](#)

The Northern Ireland Cancer Patient Experience Survey (NI CPES) 2018 follows on from the successful delivery of the survey in Northern Ireland in 2015, and similar surveys in England, Scotland and Wales. The NI CPES 2018 gave patients the opportunity to give detailed confidential feedback on their experience of care across the five Health and Social Care Trusts in Northern Ireland, allowing comparison with the experience of cancer care in the England CPES 2017, enabling local monitoring of progress on cancer care, and providing evidence that can be used to drive quality improvements.
