

Annual Report on the Take Home Naloxone Programme

1 April 2024 - 31 March 2025

NALOXONE
SAVES LIVES

Take Home Naloxone Reports

These reports show the supply and use of naloxone to reverse an overdose as part of the PHA's Take Home Naloxone programme.

Naloxone is a medication designed to rapidly reverse opioid overdose. It can very quickly restore normal respiration to a person whose breathing has slowed or stopped as a result of overdosing with heroin or prescription opioid pain medications.
