

Notes

- Screening is contraindicated (not appropriate) in the following circumstances:
 - Microtia / external ear canal atresia
 - Neonatal bacterial meningitis or meningococcal septicaemia
 - Programmable ventriculo-peritoneal shunts are in place
 - Confirmed congenital cytomegalovirus (CMV)

- Screening Outcomes:
 - BCR – clear response achieved in both ears
 - NCR – no clear response in one or both ears

- Refer for appropriate audiological assessment when there is any parental/guardian or professional concern.
