[Health Protection](#)

Do you have a child aged 6 months to 4 years in a clinical risk group?

They can now be vaccinated against COVID-19.

Eligible babies and children who are aged 6 months to 4 years should have their COVID-19 vaccinations.

Your specialist will know if they need to have the vaccine and provide a referral to your nearest vaccine clinic.

If you have any concerns speak to your child's GP or paediatrician.

For more information, see the leaflet at: pha.site/covid-vaccine-6m-4y

The poster features a central photograph of two young children sitting on the ground. One child is wearing a red and white striped beanie and a blue plaid jacket, while the other is wearing a white headscarf and a white jacket. The background is a soft-focus outdoor setting. The text is arranged in a clear, readable layout with a mix of blue and white colors.

This poster is for the parents of children at serious risk from the complications of COVID-19 infection.
