[Health Protection](#)

This information leaflet describes how you can help protect yourself from respiratory syncytial virus (RSV) by having the vaccine if you are eligible.

The vaccine is available free of charge to people who turn 75 years of age on 1 September 2024 or who are already aged 75 up to 79 years old on 1 September 2024.

A large print accessible Word version of a previous version of this leaflet is available below.
