

Notifications of infectious diseases (NOIDs)

Notifications of Infectious Diseases (NOIDs) 2025

Weekly infectious disease reports

The Notification of Infectious Diseases (NOIDs) provides weekly updates on the number of reported infectious disease cases. These reports include:

- The total number of notifications in the past four weeks
- The cumulative total for the current year
- A comparison with the same period in previous years

Tracking NOIDs helps monitor disease trends and supports public health response efforts.

View the current NOIDs reports below in the downloads section.

NOIDs archive

You can access previous reports starting from 2018 in the NOIDs archive: [View the NOIDs archive here](#)
