

# COVID-19 vaccinations - A guide for parents of children 6 months to 11 years of age at high risk

This factsheet is for parents of children aged 6 months to 11 years old whose immune systems don't work as well (immunosuppression) and are at high risk from the complications of COVID-19 infection.

Eligible children and young people who are aged 6 months to 11 years should have the COVID-19 vaccinations.
