[Health and Social Wellbeing Improvement](#)

This leaflet provides information on harm reduction services in Northern Ireland. Harm reduction services aim to help and support people who use drugs, their families and the wider community. There are two main services available in Northern Ireland – the Needle and Syringe Exchange Service and the Take Home Naloxone programme.

A current list of providers is also available for download.

[For more information, check **Harm Reduction Services for people who use drugs** page.](#)
