Health Protection

Your guide to the free RSV vaccine for residents living in a care home for older adults

How to protect yourself by having the Respiratory Syncytial Virus (RSV) vaccine

This leaflet is for people living in a care home for older adults who will be offered the RSV vaccine to protect them against Respiratory Syncytial Virus, an infectious disease of the lungs and airways that can be serious for older adults.

The leaflet describes the vaccine and how you will get it, outlines any potential side effects and answers common questions about the vaccine.
