The Chief Executive advised he had attended the board meeting of the Southern Health and Social Care Trust.

Dr Rooney advised he had attended the HAZ Conference in Loughguille, which had been organised with our colleagues from the PHA in Ballymena and noted the close relationships between our staff and the local communities in that area. Community involvement was visible, and this was displayed by the presentations that were showcased on the day.

Dr Rooney updated members about the Conference on Organ Donation Programme Board which he had attended.

After some discussion it was suggested Dr Rooney would discuss this topic in more depth at a separate meeting with members as the topic was of great interest to them.

National Cancer Institute (NCI) Summer Curriculum in Cancer Prevention 2010

Mr McClean

42/10 Involvement of Young People in PHA work

Dr Rooney talked members through Paper PHA 04/04/10. The paper proposes that one specific expression of PHA commitment to public involvement should be reflected in our engagement with children and young people.

Dr Rooney proposed that one way of reflecting this would be to invite Participation Network to become involved with the work of the PHA.

Ms Hully supported the proposal and identified three important components in this type of approach:

- *the need for capacity building among people;*
- *the need to avoid institutionalising people; who become involved; and*
- *that young people are also services users and need to be engaged at this level as well.*

Members were supportive of the proposal and also noted the need to develop relationships with the Children and Young People's Commissioner.

Members approved the paper.

Dr Waldron updated members on mephedrone/legal high in Dr Harper's absence. He advised it would become a class B drug on 16 April 2010.
