

# School vaccination clinics and COVID-19 (coronavirus)

School vaccination clinics will continue and it is important that your child continues to receive the vaccines they need when invited.

There may be changes to the usual processes at your child's school vaccination clinic in order to maintain social distance and to take all possible precautions to protect your child from COVID-19 (see next page).

Your child should attend for their vaccinations unless they are unwell or self-isolating because they have been in contact with someone with COVID-19.

If your child or anyone in your household has one or more symptoms of COVID-19 your child should not attend school. If your child has been invited to have a vaccination, you should phone the school nurse to find out what to do.

For more information on signs and symptoms, visit:

[www.pha.site/coronavirus](http://www.pha.site/coronavirus)

Clinics will be arranged in order to maintain social distance.

In line with Infection Prevention and Control guidelines, staff may be wearing personal protective equipment (PPE), including:

- face mask;
- gloves;
- apron;
- eye protection.

Please continue to minimise the spread of COVID-19 by:

- washing your hands properly and regularly
- catching coughs and sneezes in a tissue
- maintaining social distance

The latest guidance for COVID-19 is available on the PHA website [www.pha.site/coronavirus](http://www.pha.site/coronavirus)
