

A man and a woman are seated in the front of a car, with a child in the back seat. The car is surrounded by thick, swirling smoke that fills the interior and extends outwards. The man is holding a lit cigarette, and a small plume of smoke is visible coming from it. The background is black, making the smoke and the people stand out.

Over 80% of smoke is invisible.

None of it is safe.

From 1st February it's illegal to smoke in a vehicle if anyone in it is under 18.
