

To: All Community and Voluntary Agency staff

13 September 2023

Dear Colleagues,

Covid-19 Vaccination of client-facing staff employed in HSC-contracted Services with the Community and Voluntary Sector

The COVID-19 booster and flu vaccine programme will begin on 18th September 2023. Both vaccines are available for client-facing frontline staff HSC workers and we encourage all eligible groups to avail of both vaccinations. I wish to confirm that Community and Voluntary Sector staff, in a client-facing role are included in frontline staff HSC workers.

Frontline staff HSC workers can attend for their vaccinations at any local participating [Community Pharmacy](#) or at a Trust clinic. Appointments to any Trust clinic can be booked via [booking platform](#).

For further details please visit: [Get a COVID-19 vaccination in Northern Ireland | nidirect](#)

Yours sincerely

Dr Louise Herron
Deputy Director of Public Health
